Summary

Mainframe engineer with 17+ years across DB2 for z/OS engineering, version upgrades, license governance, and L3 production support in banking across EU/US/APAC. Deliver low-downtime rollouts (BMC AMI, QMF, Optim), ZPARM tuning, DR test execution, and ITIL incident/problem/change handling. Build reliable runbooks and REXX/JCL automation, coordinate APAR/PTF via SMP/E, and enable DB2 Connect for cross-platform application teams.

Core Skills

- | | | |
|---|--|---|
| • Mainframe & DB2 - DB2 for z/OS engineering, ZPARM, subsystem config; UTS conversion, SMP/E, APAR/PTF, performance & monitoring | • Platform & Ops - ITIL incident/problem/change; DR planning/testing, vendor & license governance, audit readiness, runbooks & SOPs | • Tools & Utilities - z/OS, ISPF/TSO, SDSF, JCL, REXX, QMF, BMC AMI (Apptune/Catalog/Utilities), Rocket Shadow, OPTIM, Omegamon, RMF, Insync |
|---|--|---|

Experience

Bank of New York Mellon

July 2013 – Present

Vice President, DB2 Systems Group

Remote

- Stabilize DB2 ecosystem for banking workloads, plan upgrades (QMF, BMC AMI, Optim) and coordinate SMP/E APAR/PTF to cut downtime for multi-BU users.
- Harden subsystems, align ZPARM and migrate segmented objects to UTS with DBA partners to improve forward compatibility and resilience.
- Protect compliance, govern vendor licenses (IBM/BMC/Rocket), maintain inventories, and pass audits with zero lapse across product keys.
- Improve operations, author runbooks, lead ITIL incident/problem/change workflows, and validate DR recovery steps with cross-functional teams.

iNautix Technologies (BNY Mellon affiliate)

September 2008 – June 2013

Senior Systems Programmer (L3 Production Support)

Remote

- Restore service health, resolve L3 incidents across DB2/CICS/z/OS (e.g., ASRA, SVC dumps, contention) to meet SLA for business-critical apps.
- Accelerate triage, build a REXX utility for file-usage counts, enabling faster investigations and action by L2/L3 responders.
- Assure maintainability, coordinate IBM/CA/BMC fixes and guide technical services on APAR/PTF implementation steps via SMP/E.
- Raise operational maturity, deliver KT sessions on DB2 concepts and publish SOPs to reduce handoff friction and repeat incidents.

Education

Sri Ramakrishna Institute of Technology, Anna University

2004 – 2008

B.E., Electrical & Electronics Engineering

India

Languages

- English – Full Professional Proficiency (C1)
- German – Intermediate Working Proficiency (B1 Learning)
