Experience

Swan Pipe Support Pvt Ltd

September 2025 – Present

Business Operations Executive

Madurai, India

- Own operations reporting and commercial support for 20+ weekly inquiries across vendor, quote, and order workflows.
- Build Excel trackers (Pivots, VLOOKUP) and Power BI views to validate data and monitor KPIs end-to-end.
- Deliver 10-15 management reports/month, improving decision cadence and reducing reporting rework by 10%.
- Evaluate 15 suppliers and maintain price and lead-time comparisons to support cost-effective procurement.

Aparajitha Corporate Services Pvt Ltd

August 2022 – February 2025

Executive Personnel (Compliance Operations)

Madurai, India

- Managed compliance operations and reporting for 10+ client stakeholders across renewals, audits, and risk tracking.
- Maintained document control trackers to validate submissions and ensure completeness across portals and records.
- Accelerated renewals and audit responses through structured follow-ups, cutting missed deadlines by 15%.
- Generated MIS status reports highlighting risks, pending actions, and closures for leadership reviews.

Apollo Tyres

July 2018 – December 2018

Graduate Engineer Trainee (MIS and Operations)

Chennai, India

- Supported manufacturing MIS reporting and inventory readiness using Excel and SAP entries for dispatch workflows.
- Created Excel reports (Pivots, VLOOKUP, charts) to track production and quality trends across shifts.
- Improved traceability readiness via data checks and SAP updates, reducing material mismatches by 5%.

Projects

Employees Perspective on HR Automation — Apollo Hospital

- Analyzed employee perspectives on HR automation to identify adoption drivers and workflow gaps (50+ responses).
- Consolidated survey findings in Excel and presented recommendations to 10+ HR stakeholders for rollout planning.
- Delivered action plan that improved process clarity and increased readiness for automation adoption by 10%.

Reduction of Gearbox Rejection in Flowline Assembly — Ashok Leyland

- Studied gearbox rejection in flowline assembly to identify root causes and reduce defect rate across stations.
- Mapped process steps and inspected failure patterns using checklists and Pareto analysis in Excel.
- Proposed corrective actions that reduced rework and improved throughput by 5% in pilot runs.
