

SATYAM BHARTI

Bangalore, India (Open to relocate to Germany)

☎ +91 9035122733 ✉ Satyam.bharti.sdet@gmail.com 🌐 [Satyam Bharti](#)

Summary

Senior Lead QA/SDET with 12+ years across EdTech, imaging, and airline systems. Builds Playwright/Selenium frameworks, API/contract tests (Rest Assured, Postman), and CI/CD quality gates (Jenkins, GitHub Actions, Docker) to raise release confidence. Accessibility SME (WCAG 2.2, ACR/VPAT). Drives KPI-aligned QA governance; introduced AI-assisted test generation and log triage to speed failure isolation.

Core Skills

- **Automation** - Playwright, Selenium, Page Objects, data-driven tests, Allure, test design, risk-based testing
- **CI/CD & DevOps** - Jenkins, GitHub Actions, Docker, quality gates, pipeline dashboards
- **Accessibility** - WCAG 2.2, VPAT, Axe/Deque, screen-reader flows, TTS/MathML
- **API/Backend** - Rest Assured, Postman, Swagger/OpenAPI, schema/contract tests, SQL data checks
- **Quality & Security** - KPIs, release readiness, OWASP ZAP, Burp Suite, defect SLAs, audit evidence
- **Languages/Tools** - Java, TypeScript, JavaScript, SQL, Git, Jira, Confluence

Experience

Curriculum Associates

Bangalore, India

Senior QA Engineer

Apr 2025 – Sep 2025

- Build Playwright (TypeScript) stack with Dockerized CI to cut manual effort by about 40% and speed releases.
- Operationalize accessibility against WCAG 2.2, including MathML and TTS; produced audit-ready ACR/VPAT evidence.
- Expand API smoke and contract checks (Postman, Rest Assured) to stabilize core journeys and shorten feedback loops.
- Act as interim PM to formalize acceptance criteria and quality gates aligned with QA KPIs and release decisions.

Adobe

Bangalore, India

Lead Software Engineer (QA)

Apr 2021 – Mar 2025

- Architected greenfield Playwright framework with reusable utilities and Allure; improved cross-platform regression reliability.
- Automated REST contract and schema validation (Rest Assured) to reduce API defects across services.
- Introduced AI-driven test generation and NLP-based log triage; shortened failure isolation time by about 25%.

- Championed accessibility (WCAG 2.2) including TTS flows, contributed enterprise ACR/VPAT documentation.

Amadeus Software Labs

Bangalore, India

Software Engineer (QA)

Oct 2017 – Apr 2021

- Strengthened booking and payment journeys with E2E suites; improved stability and transaction success rates.
- Scaled Selenium automation to lift functional coverage and reduce manual verification during releases.
- Implemented API validations and SQL checks to safeguard data integrity across B2B integrations.
- Partnered with airline clients to remove performance bottlenecks and improve transaction throughput.

Adobe (Contractor)

Bangalore, India

Senior Software Engineer (QA)

Nov 2016 – Oct 2017

- Built modular Java + Selenium components to accelerate scenario authoring and reuse across product lines.
- Hardened integration testing with API and backend checks to surface defects earlier and cut rework.
- Supported ML and LiDAR data validation in R&D workflows to ensure data quality and reproducibility.

Unisys Global Services

Bangalore, India

Quality Analyst

Nov 2013 – Nov 2016

- Authored system and regression suites, automated high-value paths with IBM RFT to accelerate QA cycles.
- Verified API and database consistency, maintained audit-ready evidence and defect traceability.
- Tested IATA-compliant interline billing to prevent revenue-impacting issues.

Education

Liverpool Business School

2024

MBA (Leadership)

United Kingdom

SDM College of Engineering

2013

B.Tech (Computer Science)

India

Certifications

- Scaled Agile Practitioner
- IBM DB2 Certified

Languages

- English – Full Professional Proficiency (C1)
- German – Elementary Working Proficiency (A1, in progress)
