Summary

Senior automotive test and embedded systems engineer with 9+ years across Daimler, Mercedes-Benz and Nissan. Built HiL/SiL benches, validated ADAS/ESP and body/cluster ECUs, and drove requirements traceability to release gates. Known for diagnostic depth (UDS/OBD), robust test design and supplier alignment, BITS Pilani graduate.

Core Skills

- | | | |
|---|--|--|
| • Hard Skills - HiL/SiL testing; test design; requirements traceability; defect triage; 8D root cause; regression planning | VT6104/2004/2816/2820/2848, CANoe/CANalyzer, CAPL, IPG TruckMaker, PROVEtech (WWB), SILVER, DOORS/DNG, JIRA/RTC, Automotive Ethernet | • Domains - Instrument cluster; body electronics; ESP/braking; ECU diagnostics (UDS/OBD), CAN/CAN-FD, DVP, DFMEA, APQP/CVDS |
|---|--|--|

Experience

Daimler India Commercial Vehicles

October 2022 – Present

Senior Manager — E&E Mechatronics, LABCAR Deployment & Testing

Chennai, India

- Integrate multi-ECU benches and validate body/powertrain/telematics toward SOP readiness.
- Built LABCAR benches; linked CANoe with IPG TruckMaker, managed DOORS/JIRA traceability and 8D triage.
- Raised feature test coverage to 85% and cut pre-SOP defect leakage to 3%, stabilized release gates.
- ETAS LABCAR, Vector VT modules, CANoe/CAPL, DOORS/DNG, JIRA/RTC, TruckMaker, Automotive Ethernet, supplier coordination.

Mercedes-Benz Research & Development India (via Xpheno)

November 2021 – October 2022

Embedded Software Validation Engineer — ESP/ADAS

Bengaluru, India

- Validate ESP/ADAS features (cruise, limiter, parking, hold) through HiL/SiL with full traceability.
- Authored automated WWB flows, integrated SILVER, maintained DOORS/DNG and JIRA/RTC linkages.
- Reduced manual execution time by 35% and improved cycle throughput across regression suites.
- PROVEtech (WWB), Synopsys SILVER, CANoe, CAPL, DOORS/DNG, JIRA/RTC, structured test evidence.

Visteon Technical Services

June 2019 – November 2021

Embedded Software Engineer — Instrument Cluster

Chennai, India

- Assure cluster feature quality and diagnosability for Nissan programs in CAPL/CANoe environments.
- Built black-box suites for UDS DIDs/DTCs, language packs, MCAN/J-CAN, scripted logs and setups.
- Lowered repro time from 2h to 30m and raised regression stability via cleaner initializations.
- CANoe/CANalyzer, CAPL, Lauterbach, Segger J-Link, sleep-current checks, customer issue analysis.

Tata Consultancy Services — Citroen C3 Car

September 2016 – June 2019

EE Component Engineer — RVC/RPAS

Chennai, India

- Define component specs and mature suppliers from RFQ to validation for camera/parking systems.
- Drafted architectures, ran RFIs/RFQs, coordinated nominations, planned DVP/DFMEA under APQP.
- Achieved 90% spec conformance and improved gate predictability with earlier DFMEA closure.
- Stakeholders: LS Auto, Minda TTE, Aptiv, Pricol, cross-team reviews, benchmark-driven design choices.

Education

Birla Institute of Technology and Science (BITS) Pilani	2025
<i>M.Tech in Automotive Electronics</i>	<i>India</i>
Pune University	2016
<i>B.E. in Electronics & Telecommunication</i>	<i>India</i>

Certifications

- German A1 — inlingua (2022)

Languages

- English — Professional Working Proficiency
- German — Elementary Working Proficiency (A1)
