Summary

Non-clinical healthcare operations professional with 6+ years across home-health service delivery and intake. Strengths in clinician scheduling, patient onboarding, payer coordination, and regulatory compliance. Stabilizes workflows, resolves service issues, and partners with clinicians to maintain care standards. Comfortable with EMR routines, KPI tracking, and cross-team communication for day-to-day continuity.

Core Skills

- **Operations:** Clinical operations, patient intake, clinician scheduling, referral handling, service recovery
- **Tools/Tech:** EMR workflows, intake queues, basic KPI dashboards, checklists, email & ticketing
- **Compliance/Docs:** HIPAA procedures, payer authorization, documentation accuracy, audit readiness

Experience

Clinician Support Manager

April 2021 – June 2025

Ecorgy Solutions Pvt. Ltd (NeoGenCare CA)

Trivandrum, India

- Coordinated daily clinician–patient schedules to keep visits on time and within protocol across ambulatory home-health.
- Standardized EMR task queues and escalation rules; reduced backlog 15–20% and improved on-time adherence.
- Closed service issues with clear follow-ups and notes; lifted patient satisfaction signals 3–5% month over month.
- Tracked basic KPIs and documentation completeness to sustain payer compliance and audit readiness.

Intake Team Lead

2021 – 2024

Ecorgy Solutions Pvt. Ltd (NeoGenCare CA)

Trivandrum, India

- Directed referral-to-start-of-care flow; ensured secure data capture and accurate intake documentation in EMR.
- Verified eligibility and authorizations with payers and clinics; prevented delays 10–15% via early checks.
- Introduced intake checklists and SOPs; raised first-pass data accuracy 10–12% and reduced rework.
- Coached a small intake team on tone, privacy, and documentation to standardize patient experience.

Inventory Controller

2017 – 2018

Harry Ford (Ford India Limited)

Trivandrum, India

- Managed procurement, inventory control, and distribution of automotive spare parts through ERP systems, maintaining optimal stock levels and minimizing production downtime.
- Conducted periodic inventory audits and analyzed consumption patterns to identify variances, cut excess stock, and prevent part shortages.
- Implemented predictive inventory planning, enhancing spare part availability and reducing maintenance-related delays by 20%.
- Led ERP-based automation for real-time inventory tracking and vendor coordination, reducing lead times and improving warehouse accuracy.

- Performed precision inspections of automotive parts to ensure ISO and client compliance.
- Used micrometers, calipers, and gauges to verify dimensional and tolerance accuracy.
- Monitored production lines, identified deviations, and implemented corrective measures.
- Reduced defects through root-cause analysis and process optimization.
- Enhanced ISO certification readiness by improving inspection protocols and documentation.
