Dear Hiring Manager,

I am applying for Procure to Pay/Accounts Payable roles in Germany. I bring 7+ years across PR-to-PO operations and AP controls for global pharma programs, with depth in SAP/Coupa/SAP Dolphin and ServiceNow workflows. My focus is clean approvals, audit-ready documentation, and on-time vendor payments delivered through reliable SOPs, exception prevention, and clear SLA/TAT reporting.

At Genpact (AstraZeneca/Alexion), I own end-to-end P2P support: PR validation, PO creation/issuance, approval routing, and invoice processing (2-/3-way match against PO/GRN). I aligned PR commodity codes and vendor-risk tiers, and published KPI decks that cut overdue invoices by 25–35%. As a duplicate-avoidance SME, I used DAT across 500k invoices to prevent duplicates at source, improving cash integrity and audit outcomes. Earlier at Bank of America, I standardized responses and documentation in a regulated environment, helping stabilize post-migration flows and sustain quality benchmarks.

My toolkit spans SAP, Coupa, SAP Dolphin, Oracle, ServiceNow, and Excel (pivots/dashboards). I routinely collaborate with requestors, approvers, vendors, and GR/IR teams to resolve exceptions fast and maintain policy compliance. I am comfortable with lean/Six Sigma concepts, create pragmatic SOPs and training, and keep evidence trails aligned to internal audits and EU expectations. I'm progressing in German (working toward B2) and ready to support EU stakeholders with clear, GDPR-aware communication.

I would welcome the chance to discuss how these experiences can strengthen your P2P controls, reduce cycle time, and improve right-first-time payments. Thank you for your consideration.

Sincerely,

Mohammed Abdul Waseem
