Summary

Senior middleware engineer with 9+ years delivering IBM WebSphere administration and production operations for banking and telecom platforms. Build and run HA WebSphere ND estates with clustering, WLM, failover validation, and JVM performance tuning on Linux and AIX. Strong in secure connectivity using SSL/TLS and mTLS, certificate lifecycle management, and web tier hardening. Drive incident and change execution using runbooks, monitoring signals, and log evidence to restore services fast.

Core Skills

- **Middleware Platforms:** IBM WebSphere (7.0, 8.5.5, 9.0), IBM HTTP Server, IBM MQ (8.x, 9.x)
- **Operations:** Incident, change (RFC), problem management, on-call support, runbooks, IBM PMR escalation
- **HA & Performance:** DMGR, federation, clusters, WLM, failover, PMI, heap, thread pools, log policies
- **Tools & Systems:** BMC Remedy, IBM Tivoli Monitoring, ITCAM/APM agents, SSH, TCP/IP, F5 coordination
- **Security:** SSL/TLS, mTLS (two-way SSL), certificate renewals, global security, cipher alignment
- **App Platforms:** IBM BPM 8.5.6, WebLogic 11g

Experience

Coforge

April 2023 – Present

Analyst (IT Operations), UK banking client, WebSphere ND & IBM HTTP Server

Hyderabad, India

- Own WebSphere ND and IHS operations across test and production for UK banking web applications.
- Administer DMGR, node federation, clusters, plugins, virtual hosts, and JVM settings on Linux and AIX.
- Accelerate incident recovery by 20% through proactive tuning of heap, thread pools, and log policies.
- Strengthen security by renewing certs and enabling mTLS, cutting SSL-related outages by 30%.

Iconic IT Consulting Services

February 2022 – December 2022

Senior WebSphere Administrator, Banking client, WebSphere, IHS operations

Abu Dhabi, UAE

- Delivered WebSphere and IHS upgrades, fix packs, and patches for banking platforms across Linux and AIX.
- Configured JDBC providers, data sources, shared libraries, and JNDI to support release-ready deployments.
- Improved release stability by automating plugin generation and propagation, reducing routing defects by 25%.
- Restored MQ channels and listeners and aligned SSL ciphers, reducing connectivity incidents by 20%.

Nahil Computers

October 2018 – February 2022

Middleware Support Admin, Banking platform, WebSphere, MQ, WebLogic

Saudi Arabia

- Maintained middleware uptime for banking apps across WebSphere, MQ, and WebLogic under ITIL change controls.
- Executed deployments and troubleshooting using traces and logs to resolve JVM, plugin, and DB connectivity issues.
- Reduced recurring incidents by 25% by implementing WLM, clustering patterns, and performance remediation.
- Coordinated IBM PMR escalations and validated fixes in production to meet recovery SLAs.

Alchemy Techsol

August 2017 – September 2018

WebSphere/BPM Administrator, Vodafone India, BPM 8.5.6 on AIX

Pune, India

- Built WebSphere Process Server and BPM 8.5.6 environments on AIX for Vodafone process workloads.
- Configured deployment profiles, JDBC pools, queues, and messaging resources for stable runtime operations.
- Improved observability by installing ITCAM/APM agents and analyzing PMI signals, cutting triage time by 20%.

Softenger

February 2016 – August 2017

Middleware Associate, Telecom, 500 WebSphere servers

Pune, India

- Operated 500 WebSphere servers for telecom workloads across Linux, AIX, and Windows with on-call support.
- Handled incidents and RFCs while keeping nodes aligned to standard builds, reducing configuration drift by 20%.
- Deployed EAR, WAR, and JAR packages and maintained JDBC providers, data sources, and plugins for releases.

Education

Jawaharlal Nehru Technological University (JNTU)

September 2009 – July 2014

B.Tech, Computer Science and Engineering

Andhra Pradesh, India

Certifications & Awards

- Pat on Back award for implementing web server security hardening for critical banking applications.

Languages

- English – Full Professional Proficiency (C1)
- German – Intermediate Working Proficiency (B1)
