Summary

Regional agribusiness sales leader with 3+ years in crop protection, owning regional sales, dealer networks and farmer programs. Combines structured territory planning with hands-on field execution, trials and training to build pull for key molecules. Known for scaling new product launches from zero base, stabilizing overdue collections and driving sustained territory growth. Collaborates closely with marketing, technical and finance teams to turn field insight into targeted campaigns and market programs.

Core Skills

- **Product & Campaign Management:** Positioning, launch planning, demand generation, field trials, crop-wise campaigns.
- **Performance & Governance:** Pipeline hygiene, overdue control, target tracking, reporting, cross-functional coordination.
- **Leadership & Coaching:** Team guidance, on-the-job coaching, performance support, conflict handling, stakeholder communication.
- **Digital & Marketing Tools:** Meta Business Suite (customer engagement, campaign monitoring), Google Analytics (basic traffic and campaign performance analysis).
- **Sales & Go-to-Market:** Territory planning, sales forecasting, annual plans, coverage design, market mapping.
- **Channel & Trade Management:** Distributor onboarding, retailer engagement, credit hygiene, collections, secondary tracking.
- **Farmer & Market Development:** Farmer meetings, field days, demos, agri-fairs, university events, training delivery.
- **Data & Analytics:** MS Office Suite (Excel, PowerPoint), Power BI (sales dashboards, performance tracking).
