Summary

Salesforce QA Lead with 10+ years of end-to-end testing on Salesforce CRM and Ncino platforms across banking, insurance and oil and gas. Owns QA strategy, test planning, functional and regression testing, integration testing and UAT support in Agile Scrum environments for enterprise clients. Skilled in Salesforce Lightning testing, API and SQL-based validation, defect triage and release readiness using Azure DevOps, JIRA, HP Quality Center and related QA toolsets. Experienced in leading onshore and offshore QA teams, refining user stories with product owners and business analysts and delivering stable, low-defect releases for global programmes.

Core Skills

- **Test Leadership & Strategy:** QA strategy, test planning and estimation, sprint test management, risk-based testing
- **Release & Quality:** Release readiness, defect triage, test reporting, requirement traceability, impact and root cause analysis
- **Salesforce & CRM Testing:** Salesforce CRM, Lightning UI testing, Ncino corporate lending, loan life cycle coverage
- **Enterprise Processes:** Policy administration flows, asset tracking, banking and insurance workflows, UAT support
- **Tools & Technology:** Azure DevOps, JIRA, HP Quality Center, TFS, MS SQL Server, Oracle, Postman, SOAP UI, basic Java, Unix
- **Ways of Working:** Agile Scrum, backlog refinement and grooming, onshore offshore coordination, mentoring, knowledge transfer

Experience

People Prime Worldwide (Halliburton, Oil and Gas)

November 2022 – July 2023

Senior Salesforce QA

Hyderabad, India - Remote

- Owned QA delivery for Salesforce PE Asset 360, integrating SAP and Vorto to support global asset tracking and logistics.
- Designed functional and regression suites for asset moves, returns and integration flows using Azure DevOps and SQL checks.
- Reduced production defects and late changes by tightening acceptance criteria and running focused sprint and release triage.
- Led and mentored a team of 5 QA engineers across sprints, aligning workloads and demos with distributed stakeholders.

AgreeYa Solutions (OakNorth Bank, Banking)

October 2021 – October 2022

Senior Salesforce Test Engineer

Noida, India

- Led QA for Ncino corporate lending journeys on Salesforce, covering lead through loan completion for a UK digital bank.
- Defined test conditions and regression packs for loan stages and managed defects in JIRA with close BA and developer collaboration.
- Lowered defect leakage into UAT by tightening story reviews, clarifying acceptance criteria and refining end-to-end scenarios.
- Coordinated a team of 3 QA engineers across sprints and reused stable data sets to stabilise recurring release cycles.

Capgemini (AXA XL, Insurance)

May 2016 – October 2021

Consultant

Hyderabad, India

- Directed QA for Salesforce-based GISMO and Prebind platforms integrated with policy administration and reporting systems.
- Defined test approaches and regression coverage for policy import, insured data, claims, reinsurance and dashboard reporting.
- Improved release readiness and defect closure rates by running structured triage and reporting through Azure DevOps dashboards.
- Led offshore teams of 5 QA engineers and drove knowledge transfer and suite updates after each production release.

VirtusaPolaris

February 2013 – April 2016

Software Testing Engineer

Chennai, India

- Supported QA on large banking and e-commerce programmes for GE and Citi, focusing on functional and regression testing.
- Designed cross-browser scenarios for web and reporting workflows and logged issues in HP Quality Center for follow-up.
- Contributed to system, integration and data validation testing for investment reporting dashboards and monthly cycles.
- Prepared daily and weekly QA status reports and collaborated with leads and developers on defect investigation and fixes.

Education

Jawaharlal Nehru Technological University, Kakinada

2007 – 2011

B.Tech in Computer Science and Engineering

Kakinada, India

Certifications

- Salesforce Certified Administrator – Trailhead
