Dear Hiring Manager,

I am an office administration and operations professional with 8+ years' experience across front desk, records management, exam logistics, certificate issuance, petty cash handling, and daily reporting. I am pursuing roles in Germany where reliable, audit-ready administration and clear service routines are essential to team performance and customer experience.

In my most recent role at Eversafe Academy Pte Ltd (Singapore), I owned front office and student-services operations, implementing filing taxonomies, examination checklists, and daily cash logs in MS Office. These practices reduced document retrieval time to ~2 minutes, enabled exam-day readiness one day prior, and ensured daily cash reconciliation. During peak periods I handled 50–100 walk-ins per day and 30+ calls, cutting repeat queries and preventing certificate re-issuance through rigorous tracking. Earlier at SPM Frozen Food Pte Ltd, I supported order intake, documentation control, and billing handoffs, lowering missing paperwork to near-zero and resolving discrepancies within one business day to protect SLAs.

I bring disciplined documentation, SOP adherence, and stakeholder coordination, with strong command of MS Word, Excel, PowerPoint, and Outlook. I adapt quickly to new tools (including ERP-like workflows), maintain

clear communication under pressure, and establish simple, scalable checklists that keep operations predictable. I am available to relocate and am committed to meeting German compliance expectations and data-protection standards in daily administration.

I would welcome the opportunity to discuss how my background in high-volume front office support, documentation hygiene, and dependable service routines can contribute to your team. Thank you for your time and consideration.

Sincerely,

Infant Risoth
