Dear Hiring Manager,

I am writing to express my interest in **SAP FICO Consultant or Finance Functional Consultant** roles within your organization. With over 6 years of experience across SAP S/4HANA FI, ECC FI/CO, and Central Finance environments, I bring strong expertise in delivering stable finance operations, system configuration, and end-to-end project execution for global enterprises.

In my current role at **Accenture**, I lead application design and configuration as the primary point of contact, working closely with cross-functional teams to align business requirements with system capabilities. I oversee development lifecycle activities, ensuring high-quality delivery, efficient issue resolution, and consistent stakeholder alignment.

Previously at **Ecolab Global Services**, I owned L2/L3 SAP FI support across AP, AR, GL, and Asset Accounting for global entities, ensuring continuity of finance operations. I reduced recurring incidents by 15–20% through structured root cause analysis and process standardization. I also played a key role in system upgrades, leading UAT and regression cycles for an EHP4 to EHP8 transition, enabling a smooth cutover with minimal defect leakage. My hands-on experience with integrations, including IDocs, LSMW, and banking interfaces, has helped maintain reliable financial data flows and system stability.

I have also contributed to large-scale SAP implementations, including S/4HANA greenfield projects, where I supported payment configuration, intercompany integrations, and Financial Closing Cockpit implementation. My experience spans the full delivery lifecycle—from requirement gathering and configuration to testing, cutover, and hypercare—ensuring high-quality outcomes aligned with business expectations.

I am particularly motivated to work in Germany, known for its strong SAP ecosystem, structured finance processes, and high standards of system reliability and compliance. As a **Chancenkarte visa holder, I will be relocating to Germany in the first week of May**, enabling me to transition quickly into a local role. With my technical expertise, process-driven mindset, and ability to collaborate across global teams, I am confident in my ability to contribute effectively to your organization.

I would welcome the opportunity to discuss how my experience and skills align with your requirements.

Thank you for your time and consideration.

Sincerely,

Manikanta Arkachary A B
