Summary

Full Stack Engineer with 2+ years of hands-on experience building and shipping web applications. Deliver React and Node.js features using REST APIs, authentication, and database-backed workflows. Automate business processes to improve speed, accuracy, and end-user adoption. Own delivery from requirement gathering to deployment, support, and user enablement. Work across UI, backend services, and SQL-first data modeling with disciplined debugging and stakeholder communication.

Core Skills

- **Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Router, Responsive UI, GSAP
- **Backend:** Node.js, Express.js, Java, Spring Boot, API design, Authentication, and authorization
- **Integration:** REST APIs, JSON, validation, error handling, debugging, API testing (Postman)
- **Data:** MySQL, SQL (joins, query optimization), MongoDB, schema design, data modeling
- **Tools:** Git, GitHub, Docker, Postman, Agile delivery, issue triage, documentation
- **Deployment:** Vercel, Netlify, Render, Railway, Firebase (Auth, Hosting), release support

Experience

Wolf and Villain (Freelance)

August 2025 – Present

Full Stack Developer

Remote

- Built and delivered a production-ready Invoice Generator for SMB usage.
- Developed REST APIs using Node.js, Express 5, and PostgreSQL with clean, modular architecture.
- Implemented invoice, client, and item management with PDF generation and reporting.
- Built a modern React 19 + Vite frontend with charts, notifications, and form-driven workflows.
- Owned end-to-end delivery from requirements to deployment and client handover.

ZIDIO Development (Intern)

August 2025 – December 2025

Java Full Stack Developer

Remote

- Developed backend services using Java 17 and Spring Boot 3, implementing layered architecture and REST APIs.
- Implemented JWT-based authentication and role-based access control (STUDENT, RECRUITER, ADMIN).
- Designed and managed MySQL schemas for users, jobs, applications, messaging, notifications, and subscriptions.
- Built real-time features including private messaging, notifications, and admin support chat using WebSockets.
- Implemented Excel analytics using Apache POI with chart visualization in the frontend.
- Developed responsive UI using React 19 (Vite), Tailwind CSS, DaisyUI, Axios, and React Router.
- Built ZIDIO Connect, a full-stack Internship & Job Management Web Portal for students, recruiters, and administrators.

Support Engineer and Developer

Chennai, India

- Worked on an enterprise HR & Payroll platform supporting payroll, attendance, and leave management workflows.
- Resolved UI and functional issues using React, JavaScript, and REST API integrations.
- Supported production systems used by 2,000+ employees, ensuring stability of core HR operations.
- Delivered multilingual payslip support, improving usability across diverse user groups.
- Conducted HR user training sessions and created documentation, reducing onboarding time by 25% and recurring support queries by 15%.
- Collaborated with internal teams to analyze issues, validate fixes, and support release deployments.

Projects

Zidio Connect - Java Full Stack Application

Tech Stack: Java, Spring Boot, MySQL, React

- End-to-end job and internship management system with dashboards for students, recruiters, and administrators.
- Secure authentication, application tracking, analytics dashboards, messaging, and subscription-based feature control.
- Designed for scalability with clean separation of controllers, services, repositories, and security layers.

Invoice Generator - Full Stack Application

Tech Stack: React, Node.js, Express, PostgreSQL

- Production-ready invoice management system with PDF generation and master data handling.
- Implemented REST APIs for invoices, clients, and items with clean, modular backend structure.
- Delivered responsive frontend with charts, notifications, and real-world CRUD workflows.

Resume Builder - Frontend-Focused Application

Tech Stack: Next.js, React, TypeScript, Tailwind CSS

- Built a premium resume builder with real-time editing, multiple templates, and instant PDF export.
- Implemented state management using Zustand and advanced UI using Shadcn UI and Radix UI.
- Integrated html2canvas and jsPDF for high-quality resume PDF generation.

Education

Rajalakshmi College of Arts and Science

July 2019 – May 2022*BBA in Entrepreneurship**India*

Certifications

- Full Stack Development in Java, QSpiders (2023)
- Java Full Stack Internship Certificate - ZIDIO Development (2025)

Languages

- English - Full Professional Proficiency (C2)
- German - Intermediate Working Proficiency (B1)
