Dear Hiring Manager,

I am applying for Construction Project Manager and Corporate Real Estate Project Manager opportunities in Germany. I bring 14+ years delivering office, retail, and industrial fit-out programs end-to-end, from design coordination and tendering through execution, handover, and warranty across India and the GCC. My focus is predictable schedules, first-pass quality, and zero-incident operations supported by data-driven reporting.

Most recently, I led a multi-tower workplace refurbishment program of roughly 600,000 sq ft, coordinating design reviews, procurement, and MEP/HVAC interfaces in live-site conditions. I improved reporting with SAP dashboards, cutting manual tracking by about 40%, and delivered 8-10% savings through value engineering and vendor negotiations while sustaining EHS and quality gate compliance.

Previously at Ramani Group, I managed more than 20 office and retail fit-outs totaling over 1M sq ft for brands including Citroen, Volkswagen, Nissan, Flipkart, and Tech Mahindra, achieving approximately 95% on-time completion. Earlier, with ALEC in Dubai, I supported Bluewaters and Bvlgari resort assets and deployed Aconex Field to reduce QA cycle time by about 40% and reach near 100% first-pass acceptance on inspections. These outcomes reflect a consistent approach: disciplined planning, structured ITP/WIR governance, and proactive stakeholder management.

I am comfortable working with German and EU standards and practices, including DGNB/LEED-aligned procedures, EHS governance, and audit-ready documentation for close-out and FM handover. Tooling includes MS Project, Primavera, SAP/ERP, Aconex, and AutoCAD. I offer English at full professional proficiency and working proficiency in German (B1). With a Chancenkarte Visa, I am ready to relocate and can join on mutually agreeable timelines.

Thank you for your time and consideration. I would welcome the chance to discuss how my delivery track record, vendor governance, and quality systems can support your portfolio in Germany.

Sincerely,
Jensen S
