Summary

Senior Privileged Access Management (PAM) and Endpoint Privilege Management (EPM) Architect with 11+ years of experience designing, transforming, and governing enterprise-grade privileged access platforms across global automotive and manufacturing environments. Proven expertise in CyberArk, BeyondTrust, and WALLIX (Bastion & BestSafe), including large-scale PAM migrations, OT/IT convergence security, and regulatory alignment (SOX, GDPR, ISO 27001-aligned frameworks). Experienced in leading cross-functional security teams, driving platform modernization initiatives, and supporting enterprise audit governance. Currently leading distributed teams across global environments and open to senior architectural and platform leadership roles in Germany.

Core Skills

- **Privileged Access Management (PAM):** CyberArk (Vault, PVWA, CPM, PSM, DR Vault, EPV), BeyondTrust PAM, WALLIX Bastion, PAM architecture design, account discovery & onboarding, credential rotation, session monitoring, break-glass governance
- **Endpoint Privilege Management (EPM):** BeyondTrust EPM (Windows), WALLIX BestSafe, application control, JIT access, local admin removal strategy
- **Compliance:** SOX, GDPR, PII controls, ISO 27001-aligned governance, TISAX awareness
- **Architecture & Governance:** Zero Trust & Least Privilege frameworks, role engineering, segregation of duties, audit evidence management, DR design, risk assessment & policy drafting
- **Infrastructure:** Windows, UNIX, Linux, databases, network devices, OT/manufacturing systems
- **Leadership:** Team leadership (9 engineers across roles), 24x7 operations, stakeholder coordination, incident & change management.

Experience

Jaguar Land Rover (via TCS)

June 2022 - Present

PAM / EPM Architect & Platform Lead

Pune, India

- Lead a team of 4 PAM/EPM engineers supporting global automotive manufacturing and OT environments.
- Own enterprise-wide PAM & EPM platforms securing 800+ privileged users and thousands of servers and endpoints.
- Led architecture and governance of WALLIX Bastion, WALLIX BestSafe, and BeyondTrust PAM/EPM solutions.
- Directed strategic migration from WALLIX to BeyondTrust PAM with zero business disruption.
- Designed high-availability and disaster recovery architecture.
- Govern privileged account lifecycle including discovery, onboarding, vaulting, rotation, and access reviews.
- Ensured compliance with SOX, GDPR, and ISO-aligned frameworks.

Atos Syntel Pvt. Ltd.

January 2015 - June 2022

Consultant – CyberArk PAM — Team Lead (5 Members)

Pune, India

- Led a team of 5 PAM engineers delivering CyberArk-based enterprise solutions.
- Designed and implemented CyberArk architecture (Vault, DR Vault, PVWA, PSM, CPM, EPV).
- Managed large-scale privileged account onboarding across diverse platforms.
- Improved access hygiene via entitlement reviews and password rotation governance.
- Supported audits through documentation, reporting, and control validation.

Education

Sri Aurobindo Institute of Technology

2014

Bachelor of Engineering in Electronics and Communication

Indore, India
