Dear Hiring Manager,

With 3+ years of brand identity and marketing design experience supporting D2C and B2B teams across the EU, US, and India, I build simple, consistent systems that strengthen brand equity and improve conversion metrics. A Double Award Master's in Visual Brand Design from Domus Academy and Regent's University, completed with distinction, complements this hands-on work.

Strengths sit in identity systems, typography, layout, and design governance. Practical toolkits scale across email, web, social, and packaging, keeping teams aligned and reducing rework. Fluency in Figma and Adobe Creative Cloud supports fast, accurate execution, while disciplined specs, asset libraries, and version control make handoffs easy to adopt. I translate input from marketing, product, and sales into build-ready assets that stay on brand and ship on time.

Recent outcomes reflect this approach. At RetainIQ, I produced 45-50 modular email creatives monthly across 10+ brands while maintaining current libraries. A rebuilt HoekHome sign-up flow lifted opt-ins from 2.2% to 5% within one week. Targeted demo assets supported a paid pilot with Good Ranchers at USD 3,500/month and converted Ora Cacao through a tailored design pitch at USD 1,000/month. At Zinc and Broccoli, I own campaign concepts and launch kits for new products, run critiques, and maintain brand hygiene so teams move faster with fewer revision cycles.

Germany is the clear next step for my career. I'm motivated by the country's strong design culture, high standards for brand consistency, and the way German companies connect craft with measurable business outcomes. I am already a **Chancenkarte Visa Holder**, which supports a smooth relocation and enables me to transition quickly into a Germany-based role. The market's focus on systematic thinking, long-term product and brand building, and cross-functional collaboration aligns directly with how I work. I'm eager to contribute to teams that value clarity, reliability, and scalable design systems, and to grow within Germany's mature creative and digital ecosystem.

I would welcome the opportunity to bring this system-first mindset to your organization and help deliver brand-true assets that improve sign-ups, click-through rates, and sales enablement. Thank you for your time and consideration.

Sincerely,
Shruthi Suresh
