Summary

Cloud operations engineer with 4+ years of experience in virtualization, backup systems, and cloud infrastructure. Expertise in VMware, Azure, Commvault, and Veeam. Strong focus on system reliability, performance optimization, and business continuity. Skilled in troubleshooting infrastructure issues and managing enterprise backup environments. Expanding capabilities in cloud security and automation.

Core Skills

- **Virtualization & Systems:** VMware, Virtualization, Windows, Linux
- **Backup & Disaster Recovery:** Commvault, Veeam, Disaster Recovery
- **Networking & Infrastructure:** Networking
- **Infrastructure Management:** System Operations, Performance Optimization, Resource Management
- **Technical Strengths:** Troubleshooting, System Reliability, Operational Efficiency
- **Cloud Infrastructure & Platforms:** Cloud Infrastructure & Operations, AWS, Azure

Experience

LTIMindtree

August 2025 – Present

Senior Consultant

Maharashtra, India

- Manage backup and disaster recovery operations using Commvault and Veeam, ensuring data protection across enterprise systems and improving recovery readiness by 20%.
- Configure file-level, VM-level, and database backups, strengthening data availability and business continuity across critical workloads.
- Optimize backup retention policies and storage utilization, reducing storage overhead by 15% while maintaining compliance requirements.
- Troubleshoot backup failures and replication issues, improving backup success rates and system reliability.

Brennan IT India Pvt Ltd

June 2024 – August 2025

Cloud Operations Engineer

Maharashtra, India

- Provision, clone, and migrate virtual machines across VMware environments, improving resource utilization and system performance by 20%.
- Optimize CPU, memory, and storage allocation across virtual infrastructure, enhancing workload efficiency and stability.
- Manage backup and disaster recovery processes using Commvault and Veeam, ensuring secure and reliable data protection.
- Monitor and optimize disk space utilization across infrastructure, improving storage efficiency and preventing capacity issues.
- Troubleshoot VM performance issues, snapshot failures, and replication errors, reducing incident resolution time by 25%.

ESDS Software Solution Pvt Ltd

November 2021 – May 2024

Technical Associate

Maharashtra, India

- Configure and manage Commvault backup solutions for Windows servers and virtual machines, ensuring data protection and backup reliability.
- Troubleshoot backup failures and optimize retention policies, improving backup success rates by 15%.
- Administer Windows Server environments including patching, security updates, and issue resolution to maintain system stability.
- Implement failover clustering and high availability solutions, enhancing system uptime and business continuity.

Education

Manipal Institute of Technology <i>Bachelor of Computer Application (CGPA: 7.60)</i>	December 2021 – December 2024 <i>Rajasthan, India</i>
Maratha Vidya Prasarak Samaj's Rajarshi Shahu Maharaj Polytechnic <i>Diploma in Information Technology (Percentage: 86.63%)</i>	August 2018 – November 2021 <i>Maharashtra, India</i>

Certifications

- Microsoft Certified: Azure Administrator Associate
- Microsoft Certified: Azure Solutions Architect
- VMware Certified Technical Associate – 2024

Languages

- English – Full Professional Proficiency (C1)
- German – Intermediate Proficiency (B1)
