

ASHUTOSH DWIVEDI

Uttar Pradesh, India (Open to relocate to Germany)

☎ +91 9650565995 ✉ ashutoshdwivedisprache@gmail.com  [Ashutosh Dwivedi](#)

Summary

Biotechnology professional with 11+ years of combined academic and entrepreneurial experience across molecular biology, pharmaceutical practices, and applied research environments. Strong foundation in bioprocess engineering, enzyme kinetics, and microbial fermentation supported by hands-on laboratory experience in PCR, HPLC, and electrophoresis. Experience applying biotechnology principles in both research and healthcare settings with focus on sustainable and scalable solutions. Exposure to regulated pharmaceutical environments including GDP and GMP compliance. Seeking to contribute to research-driven roles in Germany aligned with molecular biotechnology and biopharmaceutical development.

Core Skills

- **Molecular Biology:** PCR, Gel Electrophoresis, Microbiology, Enzyme Kinetics
- **Pharmaceutical Knowledge:** GDP, GMP, Drug Handling, Cold Chain
- **Research Skills:** Experimental Design, Scientific Documentation, Data Analysis
- **Analytical Techniques:** HPLC, Laboratory Testing, Data Documentation
- **Bioprocessing & Industrial Biotechnology:** Fermentation, Bioprocess Engineering, Industrial Biotechnology

Experience

Elite Hospital & Child Care Centre

April 2022 – February 2026

Pharmacist

Uttar Pradesh, India

- Dispense 80+ prescriptions daily by verifying dosages, interactions, and patient history, ensuring accurate medication delivery and adherence to clinical safety standards.
- Manage hospital pharmacy inventory of 500+ SKUs by monitoring stock levels, expiry tracking, and procurement coordination, reducing stock-outs and wastage.
- Ensure compliance with pharmaceutical regulations and hospital protocols by maintaining documentation, audit readiness, and controlled drug handling processes.
- Collaborate with doctors and nursing staff to support treatment plans by providing medication guidance, improving patient care outcomes and therapy effectiveness.
- Counsel 40+ patients daily on medication usage, dosage, and side effects, improving patient adherence and awareness through clear communication.

Agri-Bio Innovations

January 2012 – December 2016

Co-Founder

Uttar Pradesh, India

- Co-developed a sustainable biopesticide using plant-based compounds by applying biotechnology principles and patented scientific methods.
- Expanded operations into eco-friendly agricultural tools distribution, improving accessibility to sustainable farming solutions in rural markets.
- Conducted field trials and pilot implementations in real-world agricultural environments to validate product effectiveness.

Primary Health Center (PHC)

November 2022 – February 2023

Pharmacy Intern

Uttar Pradesh, India

- Supported pharmaceutical care delivery by assisting in patient consultations, ensuring safe medication usage and adherence to prescriptions.
- Improved medication access and compliance in underserved areas by supporting distribution and patient education initiatives.
- Assisted in inventory tracking and coordinated distribution of essential medicines during vaccination and public health programs.

Unichem Laboratories

January 2009 – February 2009

Pharmaceutical Intern

Ghaziabad, India

- Performed microbiological quality testing of pharmaceutical formulations and water systems to ensure compliance with regulatory standards.
- Analyzed laboratory data to identify contamination risks and supported improvements in standard operating procedures.
- Maintained documentation and reporting aligned with pharmaceutical quality control practices.

Biotech Park

January 2008 – February 2008

Biotech Intern

Lucknow, India

- Conducted experiments on biodiesel production from plant-based sources using green chemistry and bioprocess techniques.
- Developed process documentation outlining extraction and refinement methods for renewable fuel applications.
- Supported laboratory research activities focused on sustainable energy and environmental biotechnology.

Projects

Biodiesel Production from Jatropha | Biotech Park, Lucknow, India

2008

- Extracted essential oils from medicinal and aromatic plants using standard laboratory techniques for downstream processing.
- Produced biodiesel from *Jatropha curcas* by applying green chemistry and bioprocess methods.
- Conducted quality analysis of biodiesel samples to evaluate efficiency and suitability for renewable energy applications.

Education

Shiv Nath Verma Smarak Mahavidyalya

2019 – 2021

Diploma in Pharmacy (Grade: 72.18%)

Sultanpur, India

SRM Institute of Science and Technology

2007 – 2011

Bachelor of Technology in Biotechnology (CGPA: 6.7/10)

Chennai, India

Academic Accolades

- Secured First Place in “Art from Waste” at National Science Day celebrations, SRM University (2008), demonstrating creativity and sustainability awareness.
- Awarded First Prize in “Something Out of Junk” at MILON’08 Cultural Fest, SRM University (2008), showcasing innovation and problem-solving skills.

Conferences

- Presented research at the International Conference on Bioengineering, SRM University (2011), contributing to discussions on emerging bioengineering trends.
- Prepared and presented research poster on “E-Waste” at VIT University (2009), focusing on sustainable electronic waste management.
- Participated in the National Conference on Recent Advances in Bioengineering, SRM University (2008), engaging in knowledge exchange on biotechnology innovations.
- Organized Aaruush’08, SRM University’s national technical fest, coordinating event logistics and participant engagement.
- Volunteered for National Science Day under NSS Unit II, promoting scientific awareness and community outreach.

Languages

- English – Full Professional Proficiency (C1)
- German – Intermediate Proficiency (B1, TELC Certified)
