Experience

Deloitte

July 2021 – Present

Senior Project Manager / Deputy Manager

Hyderabad, India

- Manage enterprise programs within the Digital Data Analytics Innovation team using Hybrid, Waterfall, and Agile delivery models while overseeing end-to-end project execution.
- Led Agile transformation initiatives and trained 300+ team members on Agile and Scrum practices while acting as a Scrum coach and delivery mentor.
- Directed 5-6 concurrent large-scale projects covering project initiation, planning, scheduling, budgeting, and execution governance.
- Implemented Agile delivery improvements reducing delivery cycle time and contributing \$200K toward cost recovery targets.
- Established risk management governance using RAID logs and implemented PMBOK-aligned change management processes to control scope and delivery risks.

Oracle Pvt Ltd (Contract via Pure Software)

December 2018 – July 2021

PMO Consultant / Software Engineer

India

- Supported clinical trial Electronic Data Capture (EDC) programs for EU pharmaceutical clients including Novo Nordisk, GSK, and Merck across study setup, testing, and maintenance phases.
- Delivered project execution using Hybrid, Waterfall, and Agile methodologies while adapting governance frameworks to sponsor and CRO requirements.
- Managed project schedules, tracked milestones, and coordinated daily tasks across development and QA teams ensuring timely delivery.
- Partnered with Clinical Operations and Data Management teams to translate clinical protocol requirements into EDC system configurations including eCRFs and visit schedules.
- Managed change requests including protocol amendments while coordinating impact analysis, delivery estimates, and project adjustments with stakeholders.

*Project Coordinator**Gujarat, India*

- Coordinated infrastructure project delivery for Tata Projects Limited by developing resource plans, feasibility assessments, and project execution strategies.
- Prepared preliminary project schedules and monitored execution progress across engineering and operational teams.
- Conducted risk identification and assessment activities supporting proactive mitigation planning and project stability.
- Ensured regulatory compliance by verifying adherence to project standards, procedures, and engineering guidelines.
- Facilitated cross-department communication through structured meetings and client correspondence ensuring alignment on project deliverables.
