Dear Hiring Manager,

I am writing to express my interest in an entry-level to early-career role within pharmaceutical manufacturing, quality, or operations. I hold a Doctor of Pharmacy (PharmD) and an MSc in Pharmaceutical Business and Technology, and I bring over five years of combined academic and hands-on experience within regulated pharmaceutical environments, including PSI-compliant pharmacy operations in Ireland.

Through my current role as a Pharmaceutical Technician at Molloy's Pharmacy and Healthstore, I have gained strong practical exposure to GMP-aligned workflows, SOP adherence, documentation control, and audit readiness. I routinely support medication preparation, labeling, and dispensing processes under strict regulatory oversight, while maintaining accurate records and managing FEFO-based inventory systems with zero deviations. This experience has strengthened my attention to detail and my ability to operate reliably in compliance-driven settings.

Previously, at Phelan's Pharmacy, I supported high-volume prescription and OTC workflows while applying quality documentation practices and safety standards. I also trained new staff on compliant operational procedures, reinforcing my understanding of structured processes, validation discipline, and patient safety—skills directly transferable to pharmaceutical manufacturing and quality environments.

My academic background, including peer-reviewed publications in the European Journal of Biomedical & Pharmaceutical Sciences, has further strengthened my analytical approach, documentation skills, and understanding of evidence-based practices. Combined with my MSc studies, this has prepared me to contribute effectively to EU-compliant pharmaceutical operations while continuously learning and adapting within structured quality systems.

I am currently eligible for full-time employment under Stamp 1G until November 2026 and am motivated to build a long-term career within pharmaceutical manufacturing or quality-focused roles. I would welcome the opportunity to contribute my regulatory awareness, operational discipline, and strong work ethic to your organization.

Thank you for your time and consideration. I look forward to the opportunity to discuss how my background aligns with your team's needs.

Sincerely,

Jayasree Jayachandra Panicker
