## Summary

PharmD graduate with an MSc in Pharmaceutical Business and Technology and over 5 years of combined academic and operational exposure in regulated pharmaceutical environments. Strong grounding in GMP compliance, SOP-driven workflows, documentation control, and quality systems. Experienced in medication handling, inventory management, and audit-ready records within highly regulated settings. Detail-oriented professional prepared to contribute to pharmaceutical manufacturing operations in EU-compliant facilities.

## Core Skills

- **GMP & Quality:** GMP Compliance, SOP Adherence, Quality Systems, Documentation Control, Audit Readiness
- **Inventory & Safety:** FEFO, Controlled Drug Handling, Stock Control, Patient Safety
- **Manufacturing & Operations:** Pharmaceutical Manufacturing Concepts, Sterilization Techniques, Parenteral Processes
- **Regulatory:** Regulatory Compliance, Validation Fundamentals, Internal Audits (Exposure)

## Professional Experience

### Molloys Pharmacy and Healthstore

July 2025 – Present

*Pharmaceutical Technician*

*Roscommon, Ireland*

- Supported safe and compliant medication dispensing operations within PSI-regulated pharmacy workflows.
- Executed SOP-driven preparation, labeling, and dispensing processes under pharmacist supervision using GMP principles.
- Improved documentation accuracy and audit readiness by maintaining MPS records and blister pack systems for 100+ prescriptions weekly.
- Strengthened inventory compliance by managing FEFO-based stock control and controlled drug storage with zero deviations reported.

### Phelan's Pharmacy

October 2023 – June 2025

*Healthcare Advisor / Counter Assistant*

*Dublin, Ireland*

- Supported regulated prescription and OTC workflows to ensure daily compliance with SOP and safety standards.
- Applied quality documentation practices and inventory controls across high-volume pharmacy operations.
- Improved service consistency by training 5+ new staff on compliant customer service and POS systems.
- Enhanced patient safety through accurate counselling and adherence to regulatory guidelines.

## Projects & Publications

Comparative Study: Sliding Scale vs Basal Bolus Insulin — European Journal of Biomedical & Pharmaceutical Sciences **2022**

- Evaluated insulin administration protocols to compare glycemic control effectiveness in clinical settings.
- Applied statistical analysis to assess therapeutic outcomes and treatment safety implications.
- Published findings contributing to evidence-based diabetes management practices.

Case Study: Kawasaki Disease in a Pediatric Patient — European Journal of Biomedical & Pharmaceutical Sciences2022

- Documented clinical progression and treatment response of pediatric Kawasaki disease case.
- Analyzed therapeutic interventions aligned with established clinical guidelines.
- Delivered peer-reviewed publication supporting pediatric pharmacotherapy knowledge.

Focus Areas of Study

- Quality Assurance (QA) & Quality Control (QC) Principles
  - Sterilization Techniques and Aseptic Processing
  - Chromatography & Spectroscopy (HPLC, UV-Vis – Academic Exposure)
- Volumetric Analysis and Pharmaceutical Calculations
  - Parenteral Manufacturing Processes
  - Evaluation of Pharmaceutical Formulations
