Summary

Frontend Engineer with 8+ years of experience building scalable, high-performance React applications for enterprise SaaS platforms. Strong expertise in modern JavaScript, Redux state management, REST API integration, and component-based SPA architecture. Delivered mission-critical UI systems in cybersecurity and supply chain domains with focus on accessibility, performance optimization, and maintainable code standards. Experienced in Agile delivery and cross-functional collaboration.

Core Skills

- **Frontend Technologies:** HTML5, CSS3, JavaScript (ES6+), React JS (Hooks, Context API, Performance Optimization), Bootstrap 3 & 4, Responsive Web Design, RESTful APIs Integration
- **UI/UX & Accessibility:** Cross-Browser Compatibility, WCAG 2.0 Accessibility Compliance, Responsive Design, Mobile-First Design Principles, UI Performance Optimization
- **Backend & Integration:** Node.js

Experience

NETSCOUT

June 2018 - Present

Senior Frontend Developer

India

- Architect and develop enterprise threat and risk investigation platform using React and ES6 improving detection workflow efficiency by 25 %.
- Design high-performance search engine interface optimizing large dataset retrieval and improving query response time by 30 %.
- Build scalable React modules from scratch applying component-based architecture and reusable UI patterns.
- Implement Redux middleware and async workflows ensuring predictable state management across complex data flows.
- Improve UI accessibility by aligning application to WCAG 2.0 standards enhancing compliance and usability.

NuVizz Inc

August 2016 - June 2018

Frontend Developer

India

- Migrated legacy UI framework to Bootstrap 4 and Vue.js improving maintainability and reducing UI defects by 15%.
- Developed dynamic filter framework component using React and Vue.js enabling advanced search capabilities.
- Built responsive work type forms optimized for tablet and mobile devices improving field usability.
- Integrated Webpack for module bundling and performance optimization.
- Delivered SCM application modules supporting trip creation rider management and driver assignment workflows.

AMIT ACE Micromatic Group

July 2014 - August 2016

Frontend Developer

India

- Developed ANDON monitoring system dashboards using Vue.js and JavaScript to visualize machine efficiency metrics.
- Designed responsive UI interfaces using HTML5 CSS3 and Bootstrap.
- Built analytics dashboards tracking PE%, AE%, OEE%, and downtime improving operational visibility.
- Implemented dynamic UI behaviors using JavaScript and jQuery.

Education

Manipal University

2012 - 2014

Master of Science - Medical Software

Udupi, India

VTU University

2007 - 2011

Bachelor of Engineering - Information Technology

Belgaum, India

Languages

- English - Full Professional Proficiency (C2)
- German - Intermediate Proficiency (B1)
