Summary

SAP OpenText VIM and SAP FI techno-functional consultant with 10+ years delivering implementations, rollouts, and production support across SAP ECC and SAP S/4HANA. Expertise in OpenText VIM configuration, indexing validations, COA-driven approvals, and exception handling across PO, non-PO, down payment, and freight invoices. Strong ownership of incident management, RCA, defect triage, SIT/UAT support, and release validation in ITSM environments. Trusted partner to Finance and Accounts Payable teams for control-aligned workflow improvements, documentation, and knowledge transfer.

Core Skills

- **VIM Configuration:** Document Types, Process Types, Process Options, Logic Modules, Indexing Enhancements
- **OpenText Platform:** ICC/BCC, Enterprise Scan, Archive Server, ArchiveLink, Capture and OCR Coordination
- **SAP Finance (FI):** FI-AP, FI-AR, FI-GL, Configuration, APP, Financial Statement Versions (FSV)
- **Delivery & Testing:** Fit-Gap, Customizing, SIT, UAT, Regression Testing, Cutover, Hypercare, Change Control
- **Tools & ITSM:** SAP ECC, SAP S/4HANA, SAP Solution Manager (SolMan), HPSM, Incident and Problem Management, Service now, cherwell
- **Domains:** Invoice-to-Pay (I2P), AP Operations, Workflow Approvals, SoD Controls, Audit-Ready Documentation

Professional Experience

Cognizant

October 2024 – Present

Senior Consultant

Remote

- Own SAP OpenText VIM production support to keep invoice capture, validation, and approvals stable for AP operations.
- Resolve incidents via RCA and configuration fixes across VIM and FI touchpoints using ITSM workflows and change control.
- Accelerate recovery by triaging high-priority tickets and validating patches through regression testing.
- Reduce repeat issues by maintaining runbooks, knowledge articles, and handover packs for support onboarding 10+ users.

Capgemini

July 2020 – October 2024

Senior Consultant

Mumbai, India

- Delivered SAP OpenText VIM implementations and rollouts across ECC and SAP S/4HANA to standardize invoice processing.
- Configured ArchiveLink, VIM document/process types, indexing enhancements, and COA routing aligned to SoD controls.
- Optimized PO, non-PO, down payment, and freight flows, reducing exceptions through validations.
- Improved go-live outcomes by leading SIT/UAT defect closure with ABAP teams and business testers across 3+ releases.

Accenture

August 2017 – March 2020

Application Development Analyst - SAP FI and OpenText VIM

Mumbai, India

- Delivered VIM rollouts and implementations, ensuring reliable capture-to-posting flow for invoice management programs.
- Configured VIM process options and logic modules to derive and validate indexing fields for posting readiness and controls.
- Improved posting accuracy by aligning VIM validations with FI AP posting logic and payment readiness.
- Stabilized post go-live operations through hypercare, troubleshooting, and knowledge transfer for 10+ business users.

Capgemini (Bayer)

April 2014 – July 2017

Consultant - SAP FICO Support

Mumbai, India

- Supported global SAP FI operations across GL, AP, AR, and APP to keep finance processes running within SLAs.
- Resolved incidents using SolMan and HPSM, coordinating cross-module teams for integration defects and root fixes.
- Improved audit readiness by producing functional specs, test cases, and validation evidence for FI enhancements.
- Reduced recurring issues by publishing knowledge documents and training materials for first-time-right resolution.

Selected Projects

OpenText VIM rollout and invoice workflow standardization

- Standardized VIM document/process types and COA rules to align approvals across business units and control requirements.
- Refined indexing validations and workflow routing using VIM configuration to minimize exception queues and manual rework.
- Improved invoice cycle time through streamlined approvals and cleaner master data inputs.

ArchiveLink and scanning stack stabilization

- Stabilized Enterprise Scan, ICC/BCC, and Archive Server integrations to ensure consistent scan-to-archive processing.
- Defined regression suite and release checklist for patch deployments, reducing recurring archive and attachment defects.
- Increased platform stability by reducing scanning failures and rework volume.

Education

Bachelor of Commerce (Accounting and Finance)

2009 – 2011

Mumbai University

India

Certifications

- SAP Certified Application Associate - Financial Accounting with SAP ERP 6.0 (Certificate ID: 0010983981)
